September 2, 2014

Dear Parents,

This year each ESL student at Copper Hill Elementary School will be provided an iPad and protection case for the iPad as part of a district technology initiative. The iPad is a tool that will help your child improve their reading, writing, speaking and listening skills. We are inviting you to come to Back to School Night at Copper Hill on September 18 at 7PM. I will go over the iPad initiative and provide information as well as answer your questions. The Supervisor of Educational Technology, Michael Mitchell, will also be there to help explain this new district technology initiative. If you want to bring a relative or friend to help translate, please feel free to do so. Thank you.

Irina Dmitrenko

ESL Teacher
